

Max Exterior

with Hexa surface finish

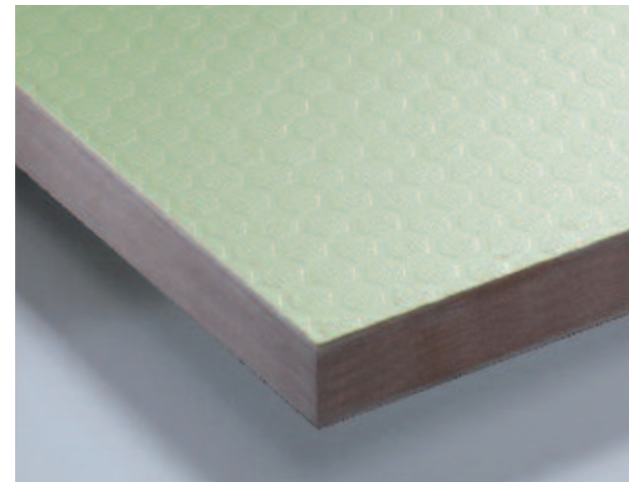

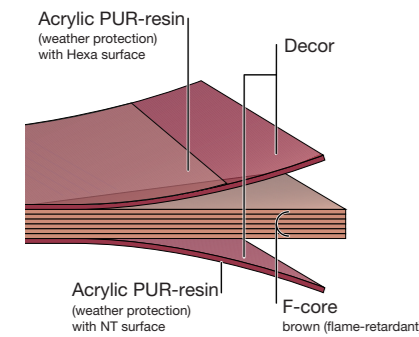

Quality

Max Exterior panels are duromer solid laminates (HPL) in accordance with EN 438-6, type EDF, that are manufactured in laminate presses under high pressure and at high temperature. Doubly hardened acrylic polyurethane resins assure highly effective weather protection, which is especially suited for long-term external use. Max Exterior panels bear the CE marking necessary for use in the construction domain.

Properties

- surface NH (Hexa NT surface finish)
- bottom side NT
- brown core (F-quality)
- slip resistance NH: R 10 in accordance with DIN 51130
- long-lasting, high-quality construction product
- frost-resistant
- easy to machine
- slate-free
- decorative
- environmentally friendly

Max Exterior floor boards

with Hexa surface finish

Stock programme and more

FunderMax also offers the high-quality, CE-certified construction product Max Exterior panel as a floor board or cassette. The Max Exterior floor boards are above all an optimal construction material for designing terrace surfaces.

Max Exterior floor boards are exceptionally weather-proof and do not require any special care to look attractive for a long time.

Many décors are available as stock items, although you can also select—upon ordering—from among the Max Exterior collection's comprehensive décor line-up.

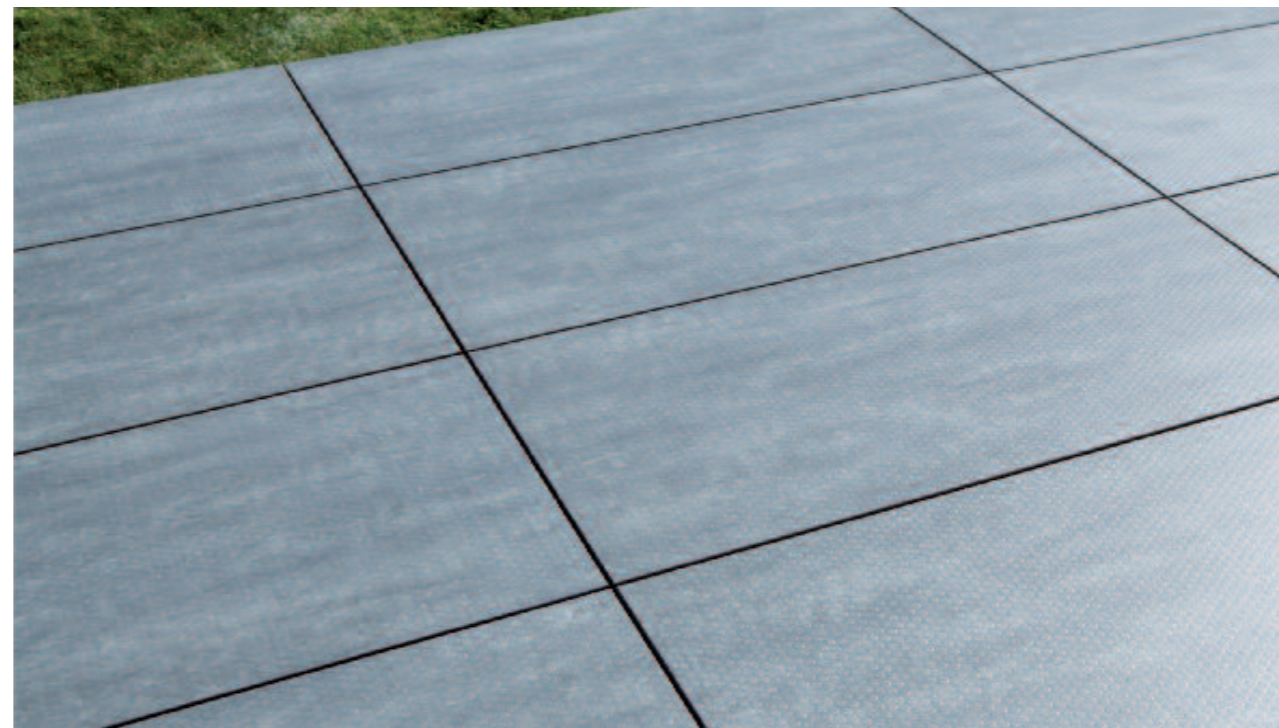

The accessories, such as the clamp units, complement the floor board range. See Floor board stock items.

Decorative and long-lasting

With over 100 trendy and classic décors, FunderMax has the right one for every taste in its range.

Due to the performance of the surface finish and the Austrian product quality, with Max Exterior floor boards or cassettes you'll have the right floor beneath your feet for a long time to come.

Relax and enjoy the view from your Max Exterior terrace.

Areas of application

- Terraces
- Balconies
- Stairs
- Pool surroundings
- Platforms
- Outdoor dining areas
- Overpasses

Installation instructions can be found in the "Floor boards/cassettes/assembly instructions" and in our brochure "Exterior Technique".

Area of application: skid-proof terraces

New construction and renovation

Max Exterior panels with Hexa surface finish are also an effective construction material for renovating existing balconies (removal of the old subsurface can be omitted in most cases) or for new construction of extension balconies.

Thanks to the self-supporting properties of Max Exterior balcony floor panels, use on metal or wood substructures in accordance with the technical guidelines and in compliance with regional building codes is recommended.
